

# Weill Neuroscience Building Product List

| Product                                                       | Size   | Price*   | Product Number |
|---------------------------------------------------------------|--------|----------|----------------|
| 1,3- Dicyclohexylcarbodiimide, 99%                            | 100 g  | \$56.32  | D80002         |
| 2-Mercaptoethanol, for molecular biology, 99% (GC/titration)  | 25 mL  | \$9.38   | M3148          |
| 2-Propanol, >=99.5%, ACS reagent                              | 4L     | \$17.02  | 190764         |
| 2-Propanol, BioReagent, for molecular biology ≥99.5%          | 500 mL | \$29.74  | I9516          |
| 3-Chlorobenzoic acid, <=70%                                   | 100 g  | \$98.50  | 273031         |
| Acetic Acid, ACS reagent, >=99.7%                             | 500 mL | \$22.60  | 695092         |
| Acetic Anhydride, ACS reagent, >=98.0%                        | 100 g  | \$22.48  | 242845         |
| Acetone, for HPLC, >=99.9%                                    | 4L     | \$42.10  | 270725         |
| Acetonitrile, HPLC plus, >=99.9%                              | 1L     | \$40.30  | 34998          |
| Acrylamide                                                    | 500 g  | \$56.07  | A8887          |
| Agarose LE                                                    | 100 g  | \$198.98 | 11685660001    |
| Agarose LE                                                    | 500 g  | \$545.39 | 11685678001    |
| Agarose, BioReagent, for molecular biology, low EEO           | 100 g  | \$57.27  | A9539          |
| Agarose, BioReagent, for molecular biology, low EEO           | 500 g  | \$216.30 | A9539          |
| Bleach                                                        | 1 gal  | \$2.82   | KIK8635042CT   |
| Calcium chloride dihydrate BioXtra, >99%                      | 500 g  | \$46.07  | C5080          |
| Chloroform, for HPLC, contains 0.5-1.0% ethanol as stabilizer | 1L     | \$26.10  | 366927         |
| Crystal violet solution, 1%, aqueous solution                 | 250mL  | \$27.76  | V5265          |
| Crystal Violet, certified by the Biological Stain Commission  | 25g    | \$43.32  | C0775          |
| Dichloromethane, ACS reagent, =99.5%, C                       | 500mL  | \$11.18  | D6510          |
| Dichloromethane, for HPLC, Contains amylene, 1L               | 1L     | \$31.38  | 34856          |
| Dichloromethane, HPLC Plus, 1L                                | 1L     | \$42.82  | 650463         |
| Dimethyl Sulfoxide, >=99.9%, ACS reagent                      | 500mL  | \$15.23  | 472301         |
| DL-DITHIOTHREITOL, for molecular biology                      | 5g     | \$79.51  | D9779          |
| EDTA molecular biology reagent                                | 250g   | \$51.41  | E5134          |
| EDTA, 0.5 M, pH 8.0, molecular biology grade, DEPC-Treated    | 100mL  | \$53.56  | 324506         |
| Ethanol, pure, 200 proof, for molecular biology               | 4L     | \$17.25  | E7023          |
| Ethanol, denatured, for histology                             | 1 gal  | \$10.00  | R8382          |
| Formaldehyde, molecular biology reagent                       | 500mL  | \$17.75  | F8775          |
| Formaldehyde Solution, ACS reagent, 37%                       | 500mL  | \$15.37  | 252549         |
| Formalin Solution, neutral buffered, 10%                      | 4L     | \$20.42  | HT501128       |
| Formalin-free Tissue Fixative                                 | 1 gal  | \$104.94 | A5472          |
| Formamide, BioUltra, for molecular biology                    | 250mL  | \$13.13  | 47671          |
| Glycerol, ACS Reagent, >=99.5%                                | 500mL  | \$10.43  | G7893          |
| Glycerol, for molecular biology, >=99.                        | 1L     | \$30.78  | G5516          |
| Glycine, BioUltra, for molecular biology                      | 1Kg    | \$277.05 | 50046          |
| Glycine, Reagent Plus, >= 99% (HPLC)                          | 1Kg    | \$45.92  | G7126          |
| Hydrochloric acid, 37%, ACS reagent                           | 2.5L   | \$57.98  | 258148         |
| Hydrogen peroxide solution 30% (W/W)                          | 500mL  | \$112.69 | H1009          |
| Hydrogen peroxide solution 34.5-36.5%                         | 1L     | \$64.38  | 18304          |

# Weill Neuroscience Building Product List

| Product                                                          | Size  | Price*   | Product Number |
|------------------------------------------------------------------|-------|----------|----------------|
| Magnesium chloride hexahydrate, ACS reagent, 99.0-102.0%         | 500g  | \$17.75  | M9272          |
| Magnesium sulfate heptahydrate, 98+%,                            | 500g  | \$73.48  | 230391         |
| Methanol, >=99.8%, ACS Reagent                                   | 4L    | \$12.13  | 179337         |
| Mineral Oil, BioReagent, suitable for mouse embryo cell culture  | 500mL | \$45.29  | M8410          |
| N,N'-Dicyclohexylcarbodiimide                                    | 100g  | \$52.43  | 36650          |
| N,N-Dimethylformamide, >=99.8%, ACS reagent                      | 500mL | \$8.70   | 319937         |
| N-Lauroylsarcosine sodium salt                                   | 50g   | \$32.58  | L9150          |
| Paraformaldehyde, 95%                                            | 500g  | \$29.49  | 158127         |
| Periodic Acid                                                    | 100g  | \$116.07 | P0430          |
| Phenol – chloroform – isoamyl alcohol mixture, BioUltra, 25:24:1 | 100mL | \$85.56  | 77617          |
| Phenol, for molecular biology                                    | 100g  | \$44.74  | P1037          |
| Phenol red solution, liquid, 0.5%, sterile-filtered, BioReagent  | 100mL | \$26.83  | P0290          |
| Phenol red, powder, BioReagent, suitable for cell culture        | 5g    | \$27.38  | P3532          |
| PMSF                                                             | 10g   | \$142.84 | 10837091001    |
| Potassium chloride, anhydrous, free-flowing, ACS reagent, ≥99%   | 1Kg   | \$18.59  | 746436         |
| Potassium dichromate, ACS reagent, ≥99.0%                        | 500g  | \$48.81  | 207802         |
| Potassium hydroxide, ACS reagent, ≥85%, pellets                  | 500g  | \$12.23  | 221473         |
| Potassium permanganate, ACS reagent, ≥99.0%                      | 500g  | \$42.79  | 223468         |
| Silver nitrate, ACS reagent, 99+%                                | 100g  | \$103.38 | 209139         |
| Sodium azide, ReagentPlus, ≥99.5%                                | 25g   | \$25.71  | S2002          |
| Sodium bicarbonate, anhydrous, ACS reagent, ≥99.7%               | 2.5Kg | \$13.94  | 792519         |
| Sodium chloride, anhydrous, ACS reagent, ≥99.7%                  | 500g  | \$17.49  | 746398         |
| Sodium dodecyl sulfate solution, BioUltra                        | 500mL | \$124.17 | 05030          |
| Sodium dodecyl sulfate solution, BioUltra                        | 100mL | \$62.51  | 71736          |
| Sodium dodecyl sulfate, BioReagent                               | 100g  | \$24.23  | L3771          |
| Sodium hydroxide, 50% solution in water                          | 4L    | \$35.53  | 415413         |
| Sodium hydroxide, anhydrous, ACS reagent, ≥99.7%                 | 500g  | \$13.85  | 795429         |
| Sodium M-periodate                                               | 100g  | \$41.67  | S1878          |
| Sodium nitrate, ACS reagent                                      | 500g  | \$28.52  | 221341         |
| Sucrose, BioXtra, >= 99.5% (GC)                                  | 1Kg   | \$29.71  | S7903          |
| Sulfuric acid, ACS reagent, 95.0-98.0%                           | 2.5L  | \$18.16  | 258105         |
| TRI Reagent, for DNA, RNA and protein isolation                  | 100mL | \$223.34 | 93289          |
| Triethanolamine, BioUltra, >= 99.5 % (GC)                        | 100mL | \$82.52  | 90278          |
| Trifluoroacetic acid, ReagentPlus, 99%                           | 100mL | \$17.20  | T6508          |
| TRITON X-100 molecular biology reagent                           | 100mL | \$26.39  | T8787          |
| TRITON X-100, BioXtra                                            | 1L    | \$51.99  | T9284          |
| TWEEN 20, BioXtra, viscous liquid                                | 100mL | \$17.06  | P7949          |
| Urea, powder, BioReagent, for molecular biology                  | 500g  | \$35.12  | U5378          |
| Xylenes, ACS Reagent, >=98.5% xylenes + ethylbenzene basis       | 500mL | \$21.42  | 247642         |
| Xylenes, ACS Reagent, >=98.5% xylenes + ethylbenzene basis       | 4L    | \$12.43  | 247642         |
